

# COMPUTER ETHICS TERM PAPER QUIZ

30 minutes

April 6, 2017

Student Id	Full Name	Signature

1. Give TWO EXAMPLES of real-life cases where the inequality in accessing information technologies BETWEEN TWO PERSONS would cause a moral issue.
2. For one of your examples above, give an example of a report that inspects this inequality and explain how the report measures the inequality.
3. For the same example, give an example of an institution that tries to reduce the inequality and how the institution tries to achieve that.
